Sibling discounts apply to fees charged, not cancellation fees. No sibling discounts are available for late bookings, as these bookings can have an adverse impact on staffing and catering requirements at short notice.

Cancellation fees charged (holding fee and late notification fees) will be classed as initial absences for Centrelink purposes and will be eligible for CCS. Centrelink allows up to 42 initial absences, after which after that CCS will no longer apply (except for certain circumstances classed as additional absences). Please call Centrelink for further information.

Longer sessions such as the last day of term or year will be charged a flat rate as indicated above (so casual and emergency bookings will not incur an additional cost). However, bookings must still be made and cancelled if needed. Cancellation fees apply and are priced as such to cover additional staff costs for these sessions. Sibling discounts are indicated.
